

Corrections

Basic Current Procedural Terminology and HCPCS Coding, 2021

AHIMA Product # AC200621

On page 233 of the textbook, an incorrect code (99217) appears throughout Examples 1 and 2. The correct prolonged service add-on code is 99417.

On page 276 of the textbook, exercise 8.8, question #2 does not specify the site of the visit. To eliminate ambiguity, this encounter should be considered a home visit.

On page 443 of the textbook, an incorrect answer is provided for chapter 13, CAC simulation question #9. In 2020, the answer would have been 0228T. In the 2021 edition of CPT, the code was deleted, and the instructions are to assign an unlisted code of 64999 (see note in the CPT code book).
